

MICROLIFE[®]
Innovative Microbials[®]

L

Bacillus licheniformis

Direct Fed Microbial for Poultry

MICROLIFE[®] **L** *Bacillus licheniformis* is the culmination of decades of leading microbial research and manufacturing by Osprey Biotechnics. **MICROLIFE**[®] **L** contains a highly active, specifically selected *Bacillus licheniformis* strain to promote poultry health.

- **MICROLIFE**[®] proprietary strains are selected to enhance GIT microflora and composition. This promotes overall poultry health and performance.
- **MICROLIFE**[®] probiotics are freeze dried which uniquely insures delivery of 100% viable spores which provides more consistent and effective microbial concentration levels.
- **MICROLIFE**[®] is highly concentrated which provides more room for feed nutrient customization and better outcomes.

Ingredients: *Bacillus licheniformis*, organic Calcium Carbonate.

Guaranteed Analysis: Contains *Bacillus licheniformis*, minimum: 2.4×10^9 cfu/g.

Application Rate: Use in feed $\frac{1}{4}$ lb. per ton of complete feed. Safe for use in all feed types. Finished feed contains 3×10^5 cfu/g.

Packaging: 50 lbs / 22.6796 kg bags

Shelf life: 24 months

Product form: Dry powder

Recommended storage: Store in a cool and dry environment. 2° – 35° C / 35° – 95° F

Safety: Avoid inhalation and contact with eyes; wash hands after handling.

GMO Information: **MICROLIFE**[®] **L** does not contain GMO's or GM labeled raw materials.

U.S. Patent #9,253,988
