

MICROLIFE[®]  **S**
Innovative Microbials[®]

Bacillus subtilis

Pre-Mix

Direct Fed Microbial for Poultry

MICROLIFE[®] S *Bacillus subtilis* is the culmination of decades of leading microbial research and manufacturing by Osprey Biotechnics. **MICROLIFE[®] S** contains a highly active, specifically selected *Bacillus subtilis* strain to promote poultry health.

- **MicroLife[®]** proprietary strains are selected to enhance GIT microflora and composition. This promotes overall poultry health and performance.
- **MicroLife[®]** probiotics are freeze dried which uniquely insures delivery of 100% viable spores which provides more consistent and effective microbial concentration levels.
- **MicroLife[®]** is highly concentrated which provides more room for feed nutrient customization and better outcomes.

Ingredients: *Bacillus subtilis*, Organic Calcium Carbonate.

Guaranteed Analysis: Contains *Bacillus subtilis*, minimum: 27×10^9 cfu/g.

Application Rate: Use in feed 10g per ton of complete feed. Safe for use in all feed types. Finished feed contains 3×10^5 cfu/g.

Packaging: 50 lbs / 22.6796 kg bags

Shelf life: 24 months

Product form: Dry powder

Recommended storage: Store in a cool and dry environment. 2° – 35° C / 35° – 95° F

Safety: Avoid inhalation and contact with eyes; wash hands after handling.

GMO Information: **MICROLIFE[®] S** does not contain GMO's or GM labeled raw materials.
